

Operating principle

SANICONDENS® Clim pack is a ready-to-fit kit containing a condensate lift pump (SANICONDENS® Clim mini) and a chute. SANICONDENS® Clim pack is specially designed for easy and discrete fitting.

Appliances : air conditioners of refrigeration capacity of 10 kW or less

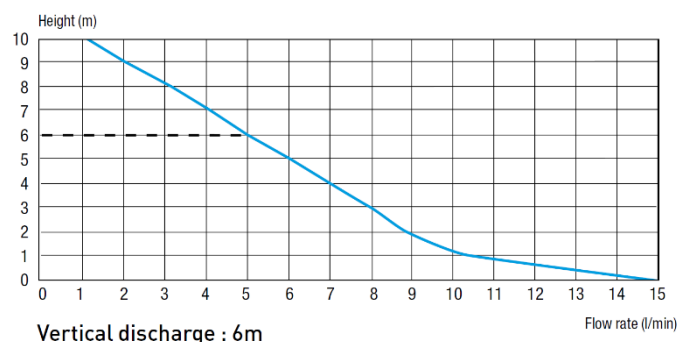

The lift pump consists of several components :

- A suction pump powered by a 22W motor reaching up to a maximum discharge head of 14 metres (Q=0 l/min)
- A water level detection system

Index of protection : IP20

Technical features :

- Electrical power supply : 220-240 V / 50 Hz
- Safety features : thermal protector

Reversible base plate (right/left) provided for easy and discrete fitting.
